MARS GAMING

MGP1 GAMEPAD

MGP1 turns any smartphone, tablet or computer into a game station. Due to its high technology 3.0 bluetooth connection, MGP1 allows high speed connection with Android, iOs and Windows devices*.

Its innovative design, with physical buttons, replace virtual and touchable keyboards, achieving more realistic game experience. And, thanks to its 3 different game modes: gamepad, keyboard/mouse and iCade, most nostalgic players will bring back memories of playing with a classic console.

MGP1 is also flexible, for taking anywhere and enjoy always best games.

*Compatible with iOs (iPhone/iPad), Android 4.0 or higher, Windows.
